### Course Description

You may have spent years honing your skills and developing expertise in a subject area. Your colleagues recognize the depth of your knowledge and your keen ability to zero in on problems and elegantly resolve them. But now you've been thrust into a training role—you are not only required to exercise your skills, but communicate your knowledge to others. For many who assume a training role, that transition is not easy. Training involves a specific set of skills that an expert in a particular field may not possess. In this course, you will learn how to develop and present successful training.

**Course Objective:** You will develop and present successful training.

**Target Student:** Anyone expected to provide training to an audience, especially those who may not have previous training experience.
